VOL. 2.

REBELS VICTORIOUS AT HANKOW

Fifteen Cities of Dominion Decide to Take Police Census in Order That Exact Figures May be Known

CIVIL WAR THREATENS THE OTTOMAN EMPIRE'S EXISTENCE

CITY ENGINEER WILL REPORT ON WATER SUPPLY SCHEME FOR GREATER EDMONTON

Is Investigating Merits of Proposition to Pump Water Into Reservoir in Rabbit Hills, from Where It Would Pass to the City by Gravity

Within the next couple of weeks the city council will be in a position to announce upon an entirely new proposal for the solution of the problem of greater Edmonton's water supply. Under the auspices of the city engineer, a survey of the water resources of the southwest of the city is now being carried on, and the outcome of the city engineer's report may be the construction of a new pumping plant some seven miles up the river, on the right bank, to meet the needs of the greater Edmonton of the future, and a reservoir on one of the Rabbit hills.

At the present juncture it is not possible to judge of the merits of the scheme, as the survey has only recently commenced and the probable cost of the project cannot be determined. The sum of \$5000 which the council voted some weeks ago to provide for the investigation of the city's future water supply is at the disposal of the city engineer's department, and not until the feasibility of the scheme is established beyond a doubt, will the report be presented. Only a fraction of the sum voted will be required to complete this survey.

Seven miles to the southwest of the city, on the Strathcona side of the

river are the Rabbit hills, whose conformation fits them admirably for the construction of reservoirs on the summit. They are probably of a sufficient height to give a head of water adequate to ensure a good pressure on the upper portions of many of the business blocks in the central part of the city. So far as can be learned no topographical survey of the country through which the water must pass is available, and it may be that the difficulties and expense of the project would prove prohibitive to its adoption. This can only be determined, however, when the completed report is received.

The proposal now under investigation provides for the construction of a waterworks plant on the bank of the river, on an open flat well suited for the purpose, and for the construction of a reservoir on one of the Rabbit hills, from which the necessary head of water will be obtained. Provision may be made for the treatment of the water, in the event of its being found to be impure, but the source of supply is many miles upstream.

An action has been obtained on property for the sum of \$100. The total cost of the investigation is \$1500, exclusive of the option. Commissioners Cuddy, Engineer Latham, and Superintendent Hoffmann, and McLean comprise the committee of investigation.

GOVERNMENT TROOPS FORCED TO RETIRE FROM HANKOW CITY

Attempt to Storm City Results in Decisive Defeat for the Imperial Troops, Who Are Now Cut Off from Their Base of Supplies—Hundreds Killed

(Special to the Capital.)

Peking, Oct. 20.—The war department this morning announced that the government troops had met a decisive defeat at the hands of the revolutionists at Hankow in the battle yesterday, when the former attempted to storm and retake the city. The list of casualties is not given, but it is reported that losses were very heavy. Hundreds of prisoners were taken by both governments, and revolutionary troops, but later the latter made a sortie and recaptured their own men. The Chinese warships stationed in the harbor to meet the revolutionists narrowly escaped being boarded in the early morning. The revolutionists drifted down the river out of range of the guns of the fortresses, located on the east of the city. The government troops were also driven inland and cut off from their base of supplies and it will be only a question of time until they will either be compelled to surrender or starve.

Must Cut Off Queues.

San Francisco, Oct. 20.—Short hair has been made the distinguishing mark of the Chinese revolutionists according to a message from Hankow received today by the Chinese Sun Yat Sen, which says that revolutionary government has given the order. The revolutionists have been told to cut their hair, and to wear a queue, which is a long braid of hair, which is the mark of the Chinese revolutionists.

Request Protection.

Other messages say that the American consuls at Nanking has asked the American government at Peking for protection, expecting serious trouble there. Daily papers have been established in the city, and the imperial government is claiming a victory in yesterday's fighting at Hankow, and the revolutionists have decided to remain neutral.

Contributions to the fund of the

RECORD BANK CLEARINGS

An exceptionally large estimate check of the contract for the purchase of the bank clearing, deposited in one of the local banks during the past week was responsible for the bank clearing for the week ending yesterday, showing a record in weekly clearings for the year. Figures for the week ending yesterday were \$2,722,417. This is an increase of \$1,329,292 over the previous week when the clearings were \$2,003,225, and an increase of about 100 per cent over the corresponding week of last year, during which the clearings were \$1,860,207.

CITIZENS OF MOOSE JAW ALSO KICK

CONTENT THAT CENSUS RETURNS ARE NOT CORRECT AND WILL APPEAL TO OTTAWA

(Western Associated Press.)

Moose Jaw, Oct. 20.—About two hundred citizens including the aldermen held a protest meeting at the Dominion census bureau, in the Y.M.C.A. building, yesterday afternoon. They made and committee appointed to frame a memorial to Minister of Agriculture at Ottawa, demanding an investigation into Regina returns. The city council will likely be asked by the committee to order a re-taking of the census in this city and in memorials to Ottawa, comparisons of the number of voters, census returns, and other statistics will be included showing this city to be very far behind head and shoulders above the rest of the province, and to send a personal delegation to Ottawa, but to arrange to send a strong protest backed by national statistics.

Nelson Dissatisfied.

Nelson, B.C., Oct. 20.—Believing that the census returns do not credit the city with anything like the real population, the citizens of Nelson on Thanksgiving day, October 20th, will make a protest.

This was decided last night at a meeting of the board of trade. The city council, the public and the Y.M.C.A. will co-operate in the work. It is proposed that both city and suburbs be covered and an exact count made of the residents.

BATTLESHIP RAMMED.

(Western Associated Press.)

Kiel, Germany, Oct. 20.—The German battleship *Blauen* was rammed last night by the Norwegian, steamer *Argo*. The damage to the battleship is slight. The steamer's bow was crushed in but she returned to Kiel unaided.

LEAD FLOWNEY IN LONDON QUITS

(Special to the Capital.)

London, Oct. 20.—The great houses of the West End of London have been stirred by a scandal, the which has never been known before. The Duke of Sutherland's mansion, Stafford House, has decided to refuse to receive the powdered wig, the silk stockings and the painted faces of London, to become a rendezvous in western Canada.

London is the superlatively dimly lit of London—the man who is mentioned in servants' halls in the same tone of veneration as young stock brokers talk of Pierpont Morgan. For twenty years he has been the most impressive personality in London, standing in the great hall of the Duke of Sutherland House and facing every caller with a cold blue eye and an unmercifully drawn face that would freeze the blood of an Eskimo. For twenty years London has seemed as devoid of emotion as the suits of armor in which he stood, and Mayfair thicket and is perplexed and amazed at this astounding decision to pull up stakes and start a new career.

But London has not the "imperial bias." His master, the Duke of Sutherland, is president of the Tariff Reform League, and talks about imperial preference to the starving crofters of the Highlands, so London has decided to become an empire builder, and hence his suits of armor, his cane, and his family will soon have for Brooks, Alberta, where they will settle on one of the Duke's farms.

NEW RECORD FOR GREAT NORTHERN

SILK TRAIN TRAVELLED FROM SEATTLE TO NEW YORK IN 82 HOURS AND 10 MINUTES.

(Special to the Capital.)

Seattle, Oct. 20.—Running easily to 90 miles an hour over the route of Montana and North Dakota, the Great Northern silk train, which left Seattle at 1:25 a. m., broke the world's long-distance speed record when it reached New York yesterday afternoon, after running a distance of 3,142 miles. The run took 82 hours and 10 minutes. Its cargo of silk was worth \$500,000.

Freights and passenger trains alike were sidetracked to let it pass. The engine train lost was 30 minutes in Chicago to chance to the Erie road.

TURKEY IS READY TO DECLARE PEACE

BUT DOES NOT DARE TO DO SO FOR FEAR SHE WILL HAVE CIVIL WAR.

London, Oct. 20.—Fear of the committee of union and progress, according to semi-official advice from Constantinople, still deterred the government from taking effective measures at once for peace. It is deemed that all real Turkish statesmen are agreed that Turkey can gain nothing by continuing the war but they are convinced that any attempt to reach a settlement on the basis of the surrender of Tripoli will precipitate an international crisis of the gravest description, possibly resulting in the loss of everything the empire possesses in Europe.

Expressed Confidence.

Constantinople, Oct. 20.—The chamber of deputies today adopted a motion that the government should endeavor effectively to safeguard the sacred rights of the Sultan in Tripoli and the integrity of the empire. The chamber also expressed confidence in the cabinet.

The Grand Vizier outlined the policy of the cabinet regarding Tripoli and said it was the government's intention to continue to offer every resistance to Italy, while persisting in its diplomatic efforts to secure an equal settlement.

Derna Bombarded.

Tripoli, Oct. 20.—Derna has been bombarded by the Italians since October 16th. A heavy sea which was running prevented the landing of forces.

DUKE OF SUTHERLAND'S SERVANT WILL BECOME RANCHER IN WESTERN CANADA

(Special to the Capital.)

London, Oct. 20.—The great houses of the West End of London have been stirred by a scandal, the which has never been known before. The Duke of Sutherland's mansion, Stafford House, has decided to refuse to receive the powdered wig, the silk stockings and the painted faces of London, to become a rendezvous in western Canada.

London is the superlatively dimly lit of London—the man who is mentioned in servants' halls in the same tone of veneration as young stock brokers talk of Pierpont Morgan. For twenty years he has been the most impressive personality in London, standing in the great hall of the Duke of Sutherland House and facing every caller with a cold blue eye and an unmercifully drawn face that would freeze the blood of an Eskimo. For twenty years London has seemed as devoid of emotion as the suits of armor in which he stood, and Mayfair thicket and is perplexed and amazed at this astounding decision to pull up stakes and start a new career.

But London has not the "imperial bias." His master, the Duke of Sutherland, is president of the Tariff Reform League, and talks about imperial preference to the starving crofters of the Highlands, so London has decided to become an empire builder, and hence his suits of armor, his cane, and his family will soon have for Brooks, Alberta, where they will settle on one of the Duke's farms.

AIRSHIP CLAIMS ANOTHER VICTIM

NO GAME TODAY.

(Special to Capital.)

Philadelphia, Oct. 20.—This morning broke dark and gloomy and after a conference the newspapers decided that there would be no world's series match today. The chances for the fourth game of the series being played tomorrow are very meagre as rain is falling.

DEFENSE READY TO BEGIN TRIAL

STATE IS NOW CHALLENGING JURORS IN McNAMARA CASE—THREE MEN BIASED

(Western Associated Press.)

Los Angeles, Cal., Oct. 20.—Seven court days after the beginning of the McNamara murder trial the state was given its first opportunity for the examination of prospective jurors, the counsel for the defense, headed by the late John C. S. Barrow, chief of the attorney for the defense, turned up three men who were under challenge for having awaited a ruling from Judge Barrow. The state within a few minutes successfully challenged John W. Roberts, a real estate dealer who had sold scrapes against capital punishment and T. W. Adams, a retired real estate dealer.

NOTHING VERY NEW IN WRIGHT MACHINE

Preliminary Gliding Tests Made Yesterday in North Carolina Not Startling.

(Western Associated Press.)

Maui, N. C., Oct. 20.—Preliminary gliding tests made yesterday by the Wright brothers on Hill Thicket developed that there is nothing radical in the design of the new machine used. Six glides were made, the longest being 200 yds, while the maximum time in the air was 25 seconds. The new machine, so far as could be observed, is in its most better wing curve, and appears to be a refinement of the model riders that Alexander Graham and their acrobatic in England.

GRITTY WRIGHT OPERATED THE MACHINE

and was assisted by his brother, Fred. 25 seconds in the air was attained over a sand slope that varied from 20 to 35 degrees.

GIOVANNI GIOLITTI—Premier of Italy.

who says his country had no other recourse than to declare war on Turkey.

Eugene Ely, Intrepid Birdman, Who Has Entertained Thousands by His Spectacular Flights, Crashes to His Death at Macon, Georgia

(Western Associated Press.)

Macon, Ga., Oct. 20.—Eugene Ely, aviator, whose parents live at Davenport, Iowa, was killed at the state fair grounds yesterday afternoon shortly before 3 o'clock, when his machine failed to rise from a sensational dip and plunged with him fifty feet to its ground. He fell in the presence of nearly 5,000 people to the middle of the inclosure of the racetrack, after almost clearing the machine by a desperate leap when he realized his peril. His body was broken in a score of places and he died a few minutes later, regaining consciousness before the end long enough to mutter: "I lost control; I know I am going to die."

Ely had made a flight in the morning, according to an altitude of 3,100 feet and at 2:45 o'clock began his second flight. As he was completing the circuit, he made a dip, seemingly to startle the thousands beneath him. The machine shot down with tremendous velocity and the crowd applauded, thinking the aviator would rise as he had done many times before. But Ely seemed to lose his grip on the lever, for the machine continued its downward plunge the lever altogether and half jumped barely clearing the aeroplane as it crashed to the ground. The machine was demolished and Ely struck with terrific force.

Ely left his wife in New York two weeks ago to come to Macon to give a series of flights for the Georgia state fair in his Curtiss biplane. He had been giving spectacular flights here for eight days, going up on one occasion in a rainstorm. Today he even offered to make a flight by night, painting his craft with phosphorus, "as it is to startle the natives," he told the fair directors. He was declared for the reason that he wanted a thousand dollars.

Before making his ascent this afternoon Ely told his attendants that he feared something would happen and asked them to notify his wife immediately if it did, at his Macon hotel, 164 West Fourteenth street, New York. Ely's body will be taken to New York by his assistants early tomorrow.

Complete East End Bridge By the First of June Next

Contractors Announce that the Substructure Will Be Completed by Date Set, February 29, When Steel Erecting Will Be Commenced

Early next week the workmen on the east end bridge will be put on double shift, and at least a hundred men will be employed by the contractors during the remainder of the season in the rushing to complete the concrete substructure, which in season, the east end bridge almost completely by the end of May of next year. The contract for the steel superstructure of the bridge was awarded by the Hamilton bridge company, and if the pier and abutments be in readiness by the end of February, it is estimated that the bridge should be open for traffic in the spring of the coming year. The purchase of land on this side to provide a six per cent. grade has been completed, and the steel bridge on either side of the stream will in no case exceed six per cent. The contract for substructure is in the hands of R. Manors.

WESTERN DIVISION SUPREME COURT

IS SCHEME FATHERED BY NEWLY NAMED MINISTER OF AGRICULTURE FOR DOMINION

(Western Associated Press.)

Ottawa, Oct. 20.—Mr. Rogers has a new and unique scheme to propose to the government as a counter-part of Premier Borden's proposal to establish a western division of the Federal railway commission. Mr. Rogers thinks that there should be a division for the federal supreme court. In favor of it he urges the saving of the expense. Western agriculturists carry cases to the supreme court and who have to come to Ottawa at great increased loss. The number of the interior believes his scheme is practical, and would be popular in Canada.

ARMY LIEUTENANT TAKES BRIDE.

Tamworth, N. Y., Oct. 20.—A wedding of a sort of a different kind took place here today, the bride being Miss Elizabeth Morse Colgate, daughter of one of the great families of New York City, and the bridegroom, Stanley M. Woodhouse of the Fifth Cavalry, U. S. Army.

The ceremony was performed at the country home of the bride's parents. After a wedding trip to Europe, Stanley Woodhouse and his bride will reside at Port Moresby.

BOOSTING EDMONTON AND DISTRICT

Within the past few days requests for material for magazine articles about Edmonton and the district have been received at the office of the local board of trade from five different magazine writers, and in every case the material sent by Mr. Fisher in response to the requests will be worked up into readable and valuable articles for the publication, for which the board of trade is not paying a cent.

Just at present Mr. Fisher is also lecturing a series of views to be used by a lecturer who intends to spend the winter in Great Britain lecturing on the possibilities of Edmonton and this district, and illustrating what he says with photographic views taken upon a screen with a lantern. Mr. Fisher is selecting pictures that show conditions typical of the district and that demonstrate to good advantage the development that is taking place in the city itself.

The collection includes a picture of the new Hudson's Bay fort which will be accompanied by another of the old parliament building, a little farther up the hill. Other pictures show Jasper and Banff scenes, residential streets and individual residences, as well as drive-ways, farm scenes and farm dwellings.

JAMES B. McNAMARA—On trial in Los Angeles, Cal., on a charge of dynamiting the Times building.

A Pound Lasts Longer

The first thing a woman notices when she starts using Blue Ribbon is its better, richer flavor. Then she notices that a pound lasts longer. A pinch of Blue Ribbon makes much more tea than is given by a larger amount of other tea. And it is guaranteed satisfactory. Your grocer will refund your money if you do not find Blue Ribbon superior to the tea you have been using. Merely return the unused portion.

The Three Wise Magi Men Say That to Aid Digestion

There is no mineral water superior to Magi Water. Your own palate will tell you all about its delightful, thirst-quenching properties, about its rich, lasting taste and full-bodied "smack" and flavor.

MAGI bottled only at the Spring, says to be "best" in quarts and half gallons at cafe, hotels, bars, drug stores, in restaurants and at all grocers, or at the bottle or the can.

McRAW IS CENSURED.

New York, Oct. 20.—The national convention today censured John McRaw, manager of the New York National League club, for his conduct during the Philadelphia-New York game here last Tuesday, and notified him that a reputation would result in ruin, from the field, inasmuch as from all further world series games, and a heavy fine. First baseman Merkle, of New York, was fined \$100 for improper language.

NEW SKATING RINK.

Preparations are to be commenced shortly for converting Diamond park into a skating and hockey rink with heated dressing rooms and all other necessary fixtures that go with a winter playground of this nature. Ice-making will be commenced as soon as the thermometer drops low enough and an effort will be made to have the rink ready for use earlier than any other in the city.

THE PEACE RIVER QUESTION AGAINST HOME RULE

Taken at Belfast Yesterday When 150,000 Persons Went on Record as Being Unalterably Opposed to the Radical-Nationalist Coalition—Chairman Is Named

(By Timothy J. O'Connor.)
The peace river question, which has been the subject of much discussion in the past, was taken up at Belfast yesterday when 150,000 persons went on record as being unalterably opposed to the radical-nationalist coalition. The chairman of the meeting was Sir Edward Carson, leader of the Irish unionist party.

Resolutions were adopted by the gathering before the residence of Captain Carson, declaring that "Home rule would result in bloodshed and disaster to the great majority in Ireland," and that the peace river question was a matter of great importance to the people of Great Britain and Ireland. We are deeply conscious of our responsibilities and are determined to vote our full share in the conflict that lies before us.

Sir Edward Carson said that it was really impossible, insofar as the personal compliment implied in the speech and resolution, and that he could not, to express adequately his feelings, but with a full knowledge of all that their deliberations and resolutions, and a full comprehension of the consequences the petition might involve, he unhesitatingly, at their request, accepted the grave responsibility which they had thrown upon him, and he entered into a solemn covenant with them that he would best to carry out its logical consequences all that every one of them would have to do.

He knew that they realized that the proceedings were not merely complimentary, but that all the resolutions and resolutions, and their action and their resolutions, demonstrated their grave determination to fight the question to the bitter end.

They were not out for show; they were out for business. The Nationalists and radicals, by their conduct of fraud and falsehood, were endeavoring to persuade the electorate that the peace river question was a matter of great importance to the people of Great Britain and Ireland. The direct contrary was the fact, that the peace river question was a matter of great importance to the people of Great Britain and Ireland.

At a later gathering Sir Edward Carson said that he was deeply conscious of the responsibilities which they had thrown upon him, and he entered into a solemn covenant with them that he would best to carry out its logical consequences all that every one of them would have to do.

He knew that they realized that the proceedings were not merely complimentary, but that all the resolutions and resolutions, and their action and their resolutions, demonstrated their grave determination to fight the question to the bitter end.

"INDUSTRIAL CENTRE"

Edmonton's New, Big Subdivision

THE FIRST TIME ON THE MARKET

INDUSTRIAL CENTRE is located at North Edmonton where the big industries are established, and where the greatest and most wonderful railroad development in the history of Western Canada has taken place. Close to Industrial Centre is the big Swift Canadian Packing Plant, employing approximately four hundred people a day. P. Burns is erecting a million-dollar Packing Plant in that vicinity which necessarily means the building of a great many homes at Industrial Centre.

This is the kind of development that increases the value of your property. In addition to these big Packing Plants, the Grand Trunk Pacific and the C. N. R. are within a few blocks of Industrial Centre, offering splendid transportation facilities. A branch of the Imperial Bank, Hotels, Stores, Schools and Churches, etc., are all within easy access of Industrial Centre, which proves conclusively that this property is located in the centre of Edmonton's greatest development.

PHRENOLOGIST IS REFUSED A LICENSE

AND SOLICITORS MAY TAKE CASE
TO COURTS TO COMPEL CITY
TO ISSUE PAPERS.

Finding it impossible to secure a license from the city authorities, L. G. M. Davidson who sought to secure the privilege to practice his profession as a phrenologist in accordance with the terms of the city bylaw, threatens to take out a mandamus to compel the city to comply with his demand. This morning the commissioners received a letter from his solicitors, Hadden, Dickson and Macdonald, intimating that unless the license be granted, mandamus may be applied for on account of the phrenologist's remuneration. Davidson applied through the proper channels for a license, the balance of the fee of \$75 is required by the bylaw. The application was opposed by Chief of Police Loney, who declared that on grounds of public policy, he was adverse to the issue of a license to any phrenologist. The chief had stated that if he would under certain investigations, but that twelve months might be required to complete them, and even if the result of his investigations were favorable to the applicant, he would see every effort to prevent the granting of the license. The solicitors contended that it was not the duty of the chief of police to refuse a license to a phrenologist, on account of his personal views which he might hold. A license could be withheld only by a decision of the existing law by-law.

Discussing the situation before the commission this morning Davidson declared that the bylaw provided that any applicant for a license should be in the satisfaction of the chief of police, of good character. The applicant was a xypsy and it might take twelve months to secure the necessary character.

Commissioner Gandy thought that if a license could be prevented from following their calling in the city, but was informed by the chief that no power to outlaw phrenology at present exist.

Enquiry at the license department this morning revealed the fact that a Canadian who was recently in the city, giving nightly lectures on various theories, and private consultations in which the department during the several weeks he spent in the city.

NAME SPEAKER FOR NEW PARLIAMENT

DR. T. S. SPOURLE IS NAMED BY
PREMIER BORDEN—P. E. BLOD-
GIN DEPUTY SPEAKER

Ottawa, Oct. 20.—Yesterday's meeting of the cabinet ministers decided that Dr. T. S. Spourle, who has represented East York in parliament since 1878 will be the next speaker of the house of commons. Dr. Spourle is one of the best parliamentarians in the house. He is familiar with the rules and should make a successful presiding officer.

COUNT THOSE WHO LEAVE DOMINION

MINISTER OF AGRICULTURE DECIDED
THIS TO BE NECESSARY
IN VIEW OF RECENT FIGURES

(Western Associated Press.)
Ottawa, Oct. 20.—It is stated that Hon. Robert Borden, previous to his departure for the west last night, decided in view of the census figures etc., to at once initiate a system under which people who leave Canada will be counted as well as those that come into the country. The attitude of the late government in regard to the census was that the counting of the departures would cost a considerable sum, and would be of little value.

TEXAS TRAIN WRECK.

(Western Associated Press.)
Marshall, Tex., Oct. 20.—One person was killed and fifteen seriously injured in the wreck of a passenger train here today.

STEAMERS COLLIDE.

(Western Associated Press.)
Hamilton, Ont., Oct. 20.—Two Canadian steamers collided in the mouth of the Erie during fog today, one of the vessels sank and the other is stranded. No details are available.

ALBERTA TO DECIDE ON RUGBY GAMES

MATCHES FOR WESTERN RUGBY
CHAMPIONSHIP WILL BE PLAYED
OFF IF THIS PRO-
VINCE ENTERS

(Western Associated Press.)
Winnipeg, Oct. 20.—President Waller of the Manitoba Canadian Rugby Association, or Eddie Chow, manager of the rugby club team, will leave for Regina tonight, if word is received today that Alberta will be represented at the conference decided on the playing off for the Western championship.

PASSENGER TRAFFIC HEAVY THIS WINTER

Large Number of Edmonton Citizens
Will Take Advantage of Holidays
to Visit East

Passenger traffic to Eastern Canada points and to Great Britain promises to be exceptionally heavy during the Christmas season, according to J. A. Norrie, of Winnipeg, traveling passenger agent for the C. P. R., who was in Edmonton yesterday making arrangements for the Christmas excursions.

PLENTY OF EVIDENCE TO Convict Persons Who Deliberately Murdered Dauphin Man on Election Night.

Dauphin, Man., Oct. 20.—Police Constable Hooper, returned from St. Louis last morning and has received evidence sufficient to convict the guilty parties in the killing of J. H. Neches at Neepawa last week. The inquest will be resumed at Neepawa tomorrow.

FIND NO TRACE OF ABSENT LABORER

WHOSE WIFE AND CHILDREN ARE
NOW DESTITUTE AT DIK-
BROOK

No trace has been found by the immigration authorities of Peter Hannon, the Norwegian laborer whose wife and children recently arrived in Edmonton from their native country and went west to Hickerle hoping to find him there working in the construction camps of Haddon & Shirley on the Hickerle branch of the G. T. P. Arrangements are being made by W. J. Webster, immigration agent, to have the woman and her children brought back to Edmonton from Hickerle, where they are being cared for by Haddon & Shirley. On returning to Edmonton she will be kept at the immigration hall while an investigation is being carried on as to the whereabouts of her husband.

NEWS OF THE CITY

W. C. Howles of Winnipeg, assistant and general freight agent for the C. P. R., was in Edmonton yesterday on business in connection with the road.

C. E. Bower, general freight agent of the G. T. P., who was in Edmonton yesterday left this morning for Winnipeg, on the east bound train over the Grand Trunk Pacific line.

Geo. H. Pope, chief of way agent for the G. T. P., is expected to arrive in the city this evening. Ribbons were distributed at the exhibition of the Edmonton Kiwanis club held on Sunday at 100 p.m. Mr. Grubbs of Manchester, England. The soloist will be Mrs. Gogger of the Moody Institute, Chicago. This mission is un-denominational, its object being to get the man on the street, and a hearty invitation is extended to everyone to come along and enjoy what should prove to be a specially interesting service.

ADVERTISING SPACE IN THE STREET CARS

Wide Range of Valuations Shown by
Tenders Submitted for the
Privilege

Fourteen tenders in all, four of which were irregular and could not be considered, were submitted in reply to the city's advertisement for the sale of the advertising space in the street cars, and the prices offered by the tenders varied all the way from \$10 per car per year, offered by the Canadian Street Car Advertising Company, Ltd., of Montreal, which holds advertising rights in every city street railway system in Canada except Calgary and Edmonton, to \$156 per car per year, offered by John J. Dowd, of Montreal. Only one tender, however, backed the tender with money. The Canadian Street Car Advertising Company, included an acceptance of check for \$1200, the amount of one year's rent in advance at the houses which they tendered, \$40 per car for thirty cars, offering to supplement the check with other payments in advance as the city added cars.

Howard Stubbins, who at one time held the advertising privilege on the cars and who threw it up, was a tenderer at \$125 per car per year, and the Electric Publicity Company, which held the privilege last year at \$120 per car per year, tendered at \$78 per car. The city commissioners, after examining the array of tenders, turned them over to the superintendent of the street railway to decide. The following are the tenders submitted:

John Dowd, Edmonton, \$156 per car per year.
Howard Stubbins, Edmonton \$125 per car per year.
International Advertising Agency, Montreal, \$95 per car per year.
R. Williams, Edmonton, \$81 per car per year.

Electric Publicity Company, Edmonton, \$78 per car per year.
International Advertising Agency, Edmonton, \$72 per car per year.
Montreal Royal Pub. Company Ltd., Montreal, \$60 per car per year.

Winnipeg Advertising Company offering on the same basis, offered \$500 for the entire system for the first year, \$600 for the second year, and \$750 for the third year.

FOOTBALL NOTES

Lethbridge put up a great game against both Princeton and Pennsylvania. Ken Fitzpatrick, the Princeton transfer, says that Captain Hart will be in shape for the Harvard game.

Real Estate News

—By—
Northern
Investment
Agency
(Limited.)

The proof of the confidence that the outside investor has in Edmonton property is shown by the many sales that have been made in Edmonton inside properties, owing to the fact that the demand for offices and stores is always greater than the supply, most of the inside property that is now being sold will be improved this coming year.

One of the large deals that were completed within the last couple of days was the 50 feet north of line in rear of the McDougall & Second property, known as the A. Garthright property, which brought handsome figure. The Northern Investment Agency, Ltd., now handling this property for purchaser will be pleased to submit prices. This is one of the choicest inside properties and price will be \$2800 per front foot in the very near future.

Following are some choice business properties:

Lot 104, H. L. G. This is an 1800 ft. lot, near St. James hotel. This lot has a frontage of 18 feet and is 150 feet deep; rentals per month \$15; easy terms.

Price... **\$16,800**

Lot in Block 6, near Jasper avenue. 24 1/2 foot frontage; easy terms. Per front foot... **\$1150**

Lot on Namayo avenue, south of 13th street. This is positively the cheapest lot on Namayo south of Norwood boulevard.

The Southwest corner of Fraser and Isabella. This lot has a frontage of 23 feet, 7 foot deep. Price (term)... **\$15,000**

Northern Investment Agency (Limited.)

The scheme to amalgamate the two international unions of steam shovel men, which originated in San Francisco, has received the endorsement of Samuel Thompson, and will be considered at the coming convention of the American Federation of Labor, at Atlantic City.

Shipping in Supplies For Use of Contractors On Hudson's Bay Road

Work Will Be Commenced on 185 Miles Stretch This Winter
—Bridge Over Saskatchewan to Be Completed in
Another Year—Millions of Cariboo

Preparations are being made by J. D. McCarthy who holds the contract from the Dominion government for the construction of 185 miles of the Hudson's Bay road north from the Pas Mission on the Saskatchewan river, to ship in this winter, supplies for the construction work that will be carried on next summer, according to William Beech, the pioneer homebuilder of Port Churchill on the Hudson's Bay who is staying at the Royal George Hotel, Men are engaged in erecting buildings of about the 185 mile stretch of right of way, to shelter the supplies that will be freighted in from the winter months. Good progress is being made in the construction of the railway bridge over the Saskatchewan river at the Pas, but according to Mr. Beech, another year will be required to complete it.

Striking to the Capital yesterday regarding the character of the country through which the Hudson's Bay road will pass, Mr. Beech told the Capital that farther than 100 miles north of the Saskatchewan river the country is very little land fit for agricultural purposes. There is quite a heavy growth of timber, principally spruce, and spruce, within 60 miles of the Hudson's Bay where what are known as the barren lands are encountered. Nothing grows on these lands but moss and in some places it is from a foot to three feet in thickness.

The timber found along the right of way of the road is of little value for commercial purposes other than for the manufacture of pulp. There is an abundance of material for railway construction work. It will be possible to secure all the supplies required in the construction of the road north of the Pas from the woods along the railway.

"The road between Hudson's Bay Junction on the north line of the C. N. R. and the Pas Mission a distance of 73 miles, lies through swamp country," said Mr. Beech, "there are practically no settlers in there. The road is being operated however, three times a week."

CLOCK WILL RUN A THOUSAND YEARS

DANGER CLAIMS TO HAVE COUPLED LAWS OF CONTRACTION, EXPANSION AND GRAVITY.

(Western Associated Press.)

New York, Oct. 20.—A clock which, it is claimed, will run for a thousand years upon energy stored up from changes in temperature, has been visited by Frederick Baugher, who has it on exhibition at his laboratory, 29 Bond Street, Stratford Island. A patent has just been granted for this device, which is one of 112 inventions to the credit of Baugher, who was gold medalist at the world's exposition in Paris in 1904 and in Belgium in 1905.

The secret of the clock's energy is the reduction to a minimum of friction in its running parts and the use of metals susceptible to heat and cold, which, by their contraction and expansion, the inventor asserts, keep the wheels turning through a device which releases metal balls in a wheel. Baugher says he has coupled in a practical way the well known laws of contraction and expansion, and of gravity. In order to show the practicality of his clock yesterday he stopped it. Then, by opening the door of the laboratory, so as to cause a change of temperature, the mechanism started up, and he continued to interrupt it would continue for a thousand years.

RAIN TREE DREAM IS ALL SHATTERED

U. S. CONSUL-GENERAL AT CALLAO, PERU, MAKES SEARCHING INVESTIGATION AND REPORTS

(Special to the Capital.)

Washington, D. C., Oct. 20.—Another dream has been shattered—that of the rain tree. For years the records show that newspaper articles, popular prognostications and elsewhere as a reality. It was pictured as the most beneficial of trees, which absorbed moisture from the atmosphere and discharged it in streams from its branches to the thirsty earth. The rain tree has been described as the saviors of all deserts. One of the latest reports has been issued by the United States consul-general at Callao, Peru, who has just returned from his investigation of the rain tree. He reports the result to his government, and they disprove the rain tree dream. He says that no rain tree exists in Peru or elsewhere to his knowledge, and quite candidly states that the support of his statement. One of the letters he says that in certain moist sections of Peru a certain tree becomes saturated, so to speak, and occasionally discharges a small amount of moisture. But the tree could not exist in other localities, so that it would not benefit arid lands.

After the consul reported, the bureau of agriculture asked the agricultural department to investigate. The report of the consul is reported that the rain tree legend is entirely untrue. He says that Australia has been a victim to the

GOVERNMENT TROOPS FORCED TO RETIRE FROM HANKOW CITY

(Continued from Page One.)

Chinese revolutionists continue to pour into the coffers of the local agents of the rebels. The headquarters of the Chang Hui republic report that \$500,000 had been forwarded to Peking, where an executive committee of the Young China party is now located.

Gives All Earnings.

A Chinese laborer, Lee Hing Hing, yesterday laid a sack containing \$1,000 gold, his life savings, on the counter of the revolutionary office. He was given \$200 in paper currency of the Chang Hui republic. This currency will be redeemed in gold if the revolution is successful.

Tung King Chong, editor of a Chinese paper reports the receipt yesterday of a check for \$500 from Toronto, Canada, and one for \$100 from Arizona. The Chinese Pressmen of Victoria, B. C., have sold their building for \$20,000, and turned over the money to aid the revolution. All of the local Chinese revolutionaries have contributed to the fund.

School of Aviation.

San Francisco, Cal., Oct. 20.—Shanghai messages to one of the Chinese papers here stated that the rebels had captured the vessel of the Chinese province, last Tuesday night and set fire to the native quarters. It also was stated that Kiang had fallen into the hands of the rebels but this was denied by government officials. A vessel from Hankow said that Admiral Shieh of the imperial navy, has ordered the northern and southern fleets to assemble in the region. It was stated here today that Fung Yu, the Chinese aviator, who had made a successful flight at Oakland, Cal., several months ago, had been placed in charge of the Imperial Aviation School at Peking.

Troops Are Defeated.

Hankow, Oct. 20.—The revolutionists declare that they captured the river and the railway station, after which all the Chinese warships retreated with the exception of one cruiser, which succeeded to the rebels retreat of the Imperials at Hankow is confirmed in other dispatches from Kiang, which state that the Chinese gunboats are retreating to Kiang. The conduct of the rebels at Hankow must be judged about here. The run on the bank here has stopped but the native forces are unable to pay their outstanding checks and business is at a standstill. Otherwise the situation is quiet.

Victory for Rebels.

Shanghai, China, Oct. 20.—The following message from Vice Admiral Winterson, British naval officer at Hankow, sent by wireless from a British vessel off Hankow was received here this morning:

"All telegraph lines to Shanghai and Peking were destroyed by fire last night for a distance of a mile beyond the settlement."

Another wireless dispatch from Hankow at noon today and retreating over land lines at Kiang Kaing, reached here at 1 o'clock, says that the government troops retreated up the river out of sight. The revolutionaries claim a great victory. Still another message says that the revolutionaries at Hankow claim a great victory over the Imperials. They declare that they captured the river-side and railway station.

Says Government Will War.

Peking, Oct. 20.—The message was sent from Hankow early this morning, was carried by messenger. The nearest open wire and this morning here this evening. Officials claimed the absence of war news was due to the fact that the minister of war, General Yu Tchang, was holding a telegraph line and not allowing any but his own messages to be transmitted. They state that General Yu had completed the organization for his forces and was rapidly pushing forward his military operations. He himself with reporting military details without furnishing definite news of Wednesday's fight.

It was reported that concentration of Imperial divisions had been completed last night at Kiang Kaing, seventy miles north of Hankow.

Official assurances were given that the outcome would be a complete, improved and ultimate triumph of government was certain.

Runners are current that the rebels had captured the Imperial troops and captured Shieh Kiang, thirty miles north of Hankow.

Another native report was that rebels held railway tunnel at Sangang Chow, about 100 miles north of Hankow.

Attempts to establish wireless communications between the capital and Hankow have thus far been fruitless.

The rumor of disaffection among the Imperial soldiers in the country while yet there was time. In consequence messengers have been warned by couriers and no communication is to be made from there. Both modern troops and volunteers have been paid and refuse to march against rebels in Szechuan.

WILL ESTABLISH NIGHT SCHOOLS AMENDMENTS TO CITY'S CHARTER

FOR BENEFIT OF FOREIGNERS WHO
DESIRE TO LEARN MORE OF
ENGLISH LANGUAGE.

OUTLINED IN A RECENT ISSUE OF
THE ALBERTA GAZETTE—PRO-
VIDES FOR AMALGAMATION

The first step toward the establishment of night classes in the English language in the Edmonton public school system was taken at the regular meeting of the school board last evening. Mr. McGee, superintendent of schools was authorized to make arrangements for the establishment of night classes. The teachers of the public schools will be approached with a view of securing their services in the night schools. They will be paid for the extra time. These evening classes being established to meet the need of a large foreign element in the city, who have little knowledge of the English language and no education in the public schools. The classes will be continued for three months of the year, November 1.

PAINTER KILLED TODAY.
VANCOUVER, Oct. 20.—Thomas, Chisholm was killed and J. Hanson badly hurt today by a fall of forty feet from the scaffolding of the city hall.

NEWS OF THE CITY

A. A. Gilroy, manager of the T. Ed. on company's Winnipeg store, is in Edmonton today a guest of the King Edward hotel.

Under the auspices of the Presbyterian church a concert and social will be held in North Edmonton at 8 o'clock this evening.

The adjourned meeting of the Edmonton Trades and Labor council will be held in the Mechanics hall on Second street this evening at 8 o'clock.

On Wednesday evening the death occurred of Anna Baron, aged seventy years, at his home at 237 Galloway street. The interment will be this afternoon at the Edmonton cemetery.

The request into the circumstances of the death of Everett McLeod, who was killed in the Laramie explosion, has been postponed until Friday, October 27, as important witnesses are to be summoned.

A fine annual number is to be issued in December by the Standard of Empire, a journal known throughout the dominions. Colored illustrations of all the principal cities in the British dominions will be reproduced.

More adequate protection to wholesale houses from fraudulent sales is the object of a bill which the members of trade of Edmonton and other cities are promoting. An effort will be made to secure the desired change in the law of the forthcoming session.

The mounted police have been asked to discover the whereabouts of Allan Hill, who left Groscheville for Edmonton about May 1. Hill was formerly a rancher of Maple Creek where some of his stock is still running. No one has been heard of him since the spring of the year.

The regular meeting of the city council will be held on Monday evening instead of Tuesday next week, as Mayor Armstrong and Secretary Treasurer Crosskill expect to be in attendance at the annual convention of the Union of Alberta municipalities in Macleod on Tuesday.

The play grounds of McKay avenue school are to be extended by the addition of three lots on the side hill, south of the present grounds on Fifth street. The purchase of these three lots from Mrs. Woods, at a price of \$2,200 was decided upon by the school board last evening.

Secretary F. T. Fisher of the Edmonton board of trade received a phone message from Charles Bremner of Clover Bar this morning stating that he has been through the country and that his wheat probably will go 42 bushels per acre. Oats also are a good crop, but barley which was planted late was touched with the frost.

W. G. Powell of the G. T. P. passenger department, who has been in Edmonton for the past two weeks relieving city passenger agent J. F. Philip, while he made a trip west to the head of stock, left the city yesterday. Mr. Powell has been appointed city passenger agent for the G. T. P. at Regina and will take his duties in the Regina office at the new future.

Today the last opportunity is provided for taxpayers to obtain the discount of five per cent. on their taxes is the reward of early payment. No more than one month. November 20, ratenayers paying their taxes at a rate of 3 per cent. from November 1 to December 31, then 5 per cent. for, and after the end of the year, five per cent. will be added to all the taxes.

BRIDES OF THE HOUR

SWETMAN-JAMIESON.

The marriages took place on October 17, at Saint Patrick's church, Kennedy street, of Mr. William Bryan Jamieson and Miss Eleanor Elizabeth Swetman. The ceremony was performed by Rev. W. C. Boyd, head of the Edmonton mission and incumbent at Saint Patrick's church.

CITY HALL NOTES

On recommendation of Dr. Whitford and Superintendent Maclean the commissioner this morning authorized the installation of a Hygeia fountain on Beech street at the post office corner where the present drinking fountain stands.

Claiming that the accident at the corner of Jasper avenue and McLeod street a couple of days ago in which a coal wagon crossing the road was overturned by a street car was due to the negligence of the driver of the car, Andrew Livingston has meaning sent in a claim to the city commissioner for the sum of \$150. Mr. Livingston alleges that the accident was entirely due to the negligence of the driver, who wilfully disobeyed the instructions of the traffic officer stationed at the crossing. The matter was referred to the city collector and the superintendent of the street railway.

THE WEATHER.

Winnipeg, Oct. 20.—Some rains and light snow falls have occurred in Manitoba and Saskatchewan and the weather is all over the Prairie provinces has been colder with heavy frost at night. Saskatchewan and Alberta's forecast.—Western provinces north-west winds mostly fair and cool with local snow flurries.

BANK DIRECTORS VISIT THE CITY

OFFICERS OF EASTERN TOWNSHIP BANK ON TOUR OF THE WEST.

On a tour of inspection through the Canadian west, the president, general manager and a number of directors of the Eastern Townships bank, with headquarters at Sherbrooke, Quebec, arrived in Stratford yesterday afternoon on their private car "Paladin" and they are in Edmonton today, guests at the King Edward hotel. The party includes William B. Davidson, president, James MacKinnon, general manager and the following directors: Gardner Stevens, G. H. Catlin, G. G. Foster, R. G. William Mitchell, F. G. McNeil, Liberal M.P. for Sherbrooke, and J. B. Howard. All the members of the party live in the vicinity of Sherbrooke, with the exception of G. G. Foster, who has a law practice in Montreal. Mr. McNeil is the first lawyer to be elected to the house of commons from the east since 1867. He was returned at the last election by a small majority.

Speaking to the press this morning Mr. Davidson said: "This is my first visit to Edmonton and from what I have seen of the surrounding country and of the railway situation here it is very apparent that the city has a great future before it."

Mr. Davidson is a staunch Conservative and he expressed the utmost satisfaction with the result of the last election. Speaking of its effect on the west he maintained that the railway would make it impossible for the west to gain distinction as a country producing high grade wheat. "The wheat would all be shipped to Minneapolis and St. Paul," he noted with inferior American grades and millers here. It would be exported as such and the railway situation here in Canada that could be produced from flour that could be produced from Canadian high grade wheat never before was mentioned.

Mr. Foster told the Capital something of the development of the Eastern Townships bank and it was through this circumstance that a branch of the bank came to be established here. The bank has a paid up capital of \$3,000,000 and a reserve fund of \$250,000. Deposits in the bank amount to \$200,000.

Mr. Foster visited the west during 1909 with the minister of the interior on a trip of inspection of the mountain posts. "There are remarkable changes in the country since then," he said this morning, "and very early in the morning I did not say here at this place, this has only to see the remarkable development is taking place all over the west to be assured that it is a country with a remarkable future."

HAVE DIFFICULTY IN NAMING JURY

CASE NOW BEING HEARD IN SUPREME COURT BEHIND CLOSED DOORS.

Much time was taken up in the supreme court this morning in the choosing of a jury for the trial of Walter L. Hall, charged before Mr. Justice Simons with the commission of a murder offence. Before the panel was complete, thirteen men had been called upon, seven of these being challenged by Mr. Mackenzie. In addition with G. C. McLeod, K. G., in behalf of the accused.

PROBE BRANDON SHOOTING AFFAIR

C.P.R. EMPLOYEE IS ACCIDENTALLY SHOT BY FRIEND AT RIFLE PRACTICE.

Brandon, Man., Oct. 20.—John Shan A. C. P. T. viper, who was shot in the eye while he and some companions were having a shooting range on Sunday morning, died at the hospital this morning. When the shooting which appeared to be purely accidental occurred, the matter dropped as the man's injury was not regarded as serious. Now that his death has occurred the shooting will be very likely investigated, Shan was standing twenty yards from the man with the gun when the shot was fired. The young man's eye was removed the day after the accident and it was found that the bullet had penetrated the skull. The bullet has never recovered.

The president general manager and directors of the Eastern Townships bank were here in Edmonton today for a tour of inspection at luncheon at 1 o'clock this afternoon at the Queen hotel by J. B. Davidson, a former resident of Sherbrooke, Que.

CREDIT BUSINESS COUNTRY'S CURSE

MANAGER OF GORDON-MCMAY CO. SAYS MERCHANTS SHOULD DO CASH BUSINESS.

The credit business that western people in practically all branches of commerce are doing, is the curse of the country, is the opinion of Fred W. Gillies, general manager of Gordon McKay and company, wholesale dry goods merchants of Toronto, who has been in Edmonton for the past few days studying the commercial situation here as he is doing also in other cities of the West.

"Many of the merchants of the Canadian West are carrying a double liability," he said to a Capital representative this morning. "They are carrying a stock of goods in their store and another stock of goods out in the country, goods that have been purchased by the consumers and not paid for. Many of them offer the excess that settlers coming in to the country have not much money and cannot pay cash, but that is not the point. The truth of the matter is that many new comers to the country when they find

that they can do a credit business with the merchants who supply them, prefer to pay up their bills and invest their money in some land. This applies to the cities as well as the country districts. I had extra goods purchased in every western town on which the first payment could not have been made if the buyer took the trouble to pay his money or dry goods bill."

Mr. Gillies expressed the opinion that any merchant could do a cash business if he simply made up his mind to it. The principle should be instilled in the minds of customers, such as they come into the country. The merchant who carries the quality of goods that meets the demand of the people will do business whether his terms are cash or credit, he maintained. He also expressed the belief that the sooner the credit basis of doing business is abandoned, the better it will be for the country.

TRADES COUNCIL TONIGHT.

The postponed regular meeting of the trades and labor council will be held in the Mechanics hall, Grand street, this evening at eight o'clock. Chief among the various items of business to be discussed is the report of the labor union and the hotel and restaurant employers union, regarding the settlement of the former in employee's unionism. It is possible that the differences arising between the brick layers union and the hotel and restaurant employers union, regarding the settlement of the former in employee's unionism. It is possible that the differences arising between the brick layers union and the hotel and restaurant employers union, regarding the settlement of the former in employee's unionism.

ROBINSON EN ROUTE.

(Western Associated Press.)
 Robinson, Minn., Oct. 20.—Hugh Robinson, Minn., who is on his way from Minneapolis to New Orleans in an airplane, came from here at 10 o'clock today. His short flying had been delayed by a thick fog. Although the weather was fair on clear, when he left the ground Robinson cleared the city and then started south.
